ABOUT COMPANY

Fire Rocks IT is a leading IT supplier to the System Integrator and the re-sellers in Jordan from 2010 and in Saudi Arabia from 2024. And we are specialized in cybersecurity solutions, Email Security. Also, Fire Rocks IT is specialized in network Active components including switching solutions, wireless solutions.

Tomorrow's world is all about collaborative working enabled by digital transformation; hence we are there to stand up with you to bring up the smarter solutions in the stream of IT and telecommunication. We have already addressed the current challenges of rapidly changing industry and continuing to provide our services for major industries verticals including hospitality, retail, logistics, health care and education.

The Fire Rocks IT Engineers are able to make special designs for all sectors and infrastructures from a to z in the network solutions. And our team trained to perform any network installations in Jordan (Passive or Active) on-site with minimal disruption to any existing network installation. All on-site connections to existing network infrastructure are checked, tested, and diagrammed, and the customer is briefed on the critical aspects of the new network installation.
